this book describes the worldwide evolution of land based visual time signals that were used by mariners in the nineteenth and twentieth centuries for accurate navigation at sea they followed development of chronometers which were carried in ships to show mean time at greenwich the chosen prime meridian greenwich time could be compared with local astronomical time to determine longitude but chronometers were mechanical devices that had to be checked for accuracy land based signals that were regulated by astronomical observations evolved from the ideas in 1818 of robert wauchope a british naval officer who served at the cape of good hope he inspired introduction of time balls specifically the time ball at greenwich in 1833 which set the standard for subsequent installations and is still in operation today the main emphasis is on the external appearance of time signals at different locations around the world and how they were used by mariners for rating chronometers time balls and guns also became popular signals for public use and workplace control but then had social and political implications

will their business deal succeed or will their fiery clashes lead to something unexpected lady ashby leads a reclusive life far from the bustling streets of victorian manchester but her peace is disrupted when a newly rich upstart crosses her path why won t he leave her alone keith barr a straightforward businessman from a humble background is eager to close a business deal with lady ashby a wealthy and scornful widow however she does everything in her power to complicate the matter and keith finds himself both repulsed and drawn to her as their constant arguments threaten to derail the deal he can t help but wonder if there could be something more between them is their fiery relationship just a business transaction or could there be something more brewing beneath the surface if you enjoy clean historical romance with witty dialogues you will
